

Unfortunately this event has been cancelled due to an electrical fault at the venue.

The next JERK event at NexusNightCafe is scheduled to take place between 2am-6am on **Sunday 13th June**

. Further details will be available soon.

**2am - 6am on 9th May 2010 at [NexusNightCafe](#)
(Saturday night / Sunday morning)**

RK of JERK will be welcoming the arrival of this Sunday with a hazy dub-ridden banquet of sound - featuring nods towards genres perceived as (but perhaps not) house, jazz and techno. Using computers to facilitate layered mixing and edits on the fly, RK will fuse a compound from existing tracks and his own interventions.

Some relaxed, some rousing, never too fast. RK has a bpm limiter of 110.

Listen to JE and RK mixes (including some recordings of previous NexusNightCafe gigs) in the ['audio stream'](#) section.
